Switch Sustainability Certificate

Auctioneer Software is awarded this Sustainability Certificate for using 100% Renewable Energy within the Switch ecosystem. This certificate demonstrates that Switch retired 54 Waste Heat Recovery Renewable Energy Credits in 2020 on behalf of Auctioneer Software, making their energy consumption 100% Green at Switch's data center facilities.

These Renewable Energy Credits comply with Greenpeace's principles of locality, additionality, and sustainability, and were generated by MISO Waste Heat Recovery facilities.

Together, we can ensure that the data running our planet doesn't ruin the planet.
