We are excited to be participating in the  
74th annual National Auctioneers Association  
Conference & Show  
taking place July 18-22, 2023 in Oklahoma City, OK!

*74th International Auctioneers Conference & Show*  
**NEW FRONTIERS**

*Oklahoma City, July 18-22, 2023*

For this year's National Auctioneer Association Conference in Oklahoma City we are excited to meet with everyone! We will have Kurt, Brandon, Shannan, and other members of the team there to talk with you and explore how we can help your auctions needs.

June 16, 2023 - Guaranteed access to FULL conference events!

\*after June 16 requests are based on availability)

We look forward to seeing everyone at the show!

**Kurt Kaptein**  
President

**Brandon Kaptein**  
Sales Manager

A banner for Auctioneer Software. It features a circular logo with the text "AUCTIONEER SOFTWARE" and "ONLINE AUCTION SOFTWARE". The background shows a gavel on a wooden surface and a laptop displaying a software interface. Below the logo, there are four tabs: "Event Based", "Bidder Invoices", "Auction Reporting", and "Custom Auction Website".

**ONLINE  
AUCTION  
SOFTWARE**

**Event Based** | **Bidder Invoices** | **Auction Reporting** | **Custom Auction Website**

Ready-to-go with features to help your auctions run smoothly! We focus on the single-seller style of auction. We have worked with:

- Auction Companies looking to offer another method of selling their items
- Non-profits using the auction format to raise funds
- Companies wishing to get rid of unused equipment in a single one-day auction
- Businesses looking for any easy way to liquidate excess inventory.

## Online auction marketing

Online Auction Marketing should be your first priority. 90% of users will search online before anything else. No matter how amazing your lots are, you won't have a great auction without great marketing.

## Check out our Mobile Bidding App

*"For bidders on the go!"*

We have spent hours developing a mobile bidding app that works seamlessly with your auction website. Not only does it give your bidders easy access to your auctions from wherever they are, it lets them receive real-time notifications right to their phone or mobile device as the auction progresses.
